Hi Mr. Riccobono,

Thank you for your letter and candidate questionnaire. I do not agree with you on any of the issues you raised in questions 1 through 7. The best way to reduce the number of abortions is through education, adoption and prosecuting rapists, so women have a lesser need to have abortions, but I would not vote to ban them.

I will tell you that when I am elected to the legislature, that I will treat you with dignity and respect as I would any citizen coming to petition his/her government. I know what it is like to be treated badly at the Capitol. I was legislative director for Pendulum Foundation, working in support of Rep. Lynn Hefley's bills to change the sentence of life without parole statute for children sent to adult prison. I'm very pleased that Governor Owens signed the bill, changing it to 40 years.

In Judaism we say that there needs to be more healing in this world, or *tikkun ha'olam*. I hope you will join me in that regard.

Thank you.
Regards, Paul

Democratic Candidate for State Representative,
House District 9
